conversations.

Announcing the new  
CaptionCall Mobile app

CaptionCall Mobile for iPhone® displays easy-to-read captions of phone conversations for improved understanding, wherever you are. Plus, the service is available at no cost for current CaptionCall users or when you provide a professional certification of hearing loss.

**Download today** by searching for  
CaptionCall in the Apple App Store.

Learn more today at  
[www.CaptionCall.com/captioncall-iphone](http://www.CaptionCall.com/captioncall-iphone)

CaptionCall is available in the United States ONLY. FEDERAL LAW PROHIBITS ANYONE BUT REGISTERED USERS WITH HEARING LOSS FROM USING INTERNET PROTOCOL (IP) CAPTIONED TELEPHONES WITH THE CAPTIONS TURNED ON. If captioned telephone service may use a live operator. The operator generates captions of what the other party to the call says. These captions are then sent to your phone. There is cost for each minute of captions generated, paid from a federally administered fund. No costs are passed along to individuals who qualify for the service.

# Sprint IP Relay Mobile App

The Sprint IP Relay app allows people who are Deaf, Hard of Hearing, DeafBlind, or have a Speech Disability to use an Android or iOS-powered device to connect with a relay operator. Simply type what you want to say to the operator, the operator relays the message to the person you called and then types their response back to you.

## Make a CapTel Call Via the Web

View word-for-word captions over the internet of your caller's conversation.

### Catch the Whole Conversation.

Effortless communication just got even more...effortless. This web-based service allows individuals who can speak, but have difficulty hearing, to read word-for-word captions on their computer screen. All you need is a phone (any kind of phone will do) and a computer with internet connectivity.
